NEW LIGHTING ORDER MEETS WITH SUCCESS

[By Associated Press to The Banner] PITTSBURGH, Oct. 11—The recent order of the district fuel administration against the use of electric power in the commercial and domestic fields between the hours of 7:30 and 10 a. m. has met with higher success than expected, working on government war orders, have been able to operate practically "full time" as a result of the saving. One morning recently, between the hours stipulated, 11,000 kilowatts of electric current was saved, this being 1,000 kilowatts more than the expected saving.

Business houses and other establishments within the scope of the "no power" order, have strictly adhered to the request of the fuel administration. All the establishments are without lights during the period and no elevators operate.

LEATHER IS SCARCE

[By Associated Press to The Banner] AMSTERDAM—To help out in the present great scarcity of leather and the consequent dearth of footwear, a German army authority recommends the introduction of linden bark moccasins such as are worn by the Russian peasantry. Made from the bark of young twigs, these shoes are said to stand two years' wear, yet they are light and easy, and can be made to fit well. The linden forests of the Prince of Monaco, near Laon, France, German say, would supply sufficient bark to make 1,000,000 shoes, and the making of them would furnish excellent light occupation for prisoners and slightly wounded.

SURVEY OF NURSING RESOURCES OF OHIO COUNTIES BEING MADE

[By Associated Press to The Banner] CLEVELAND, O., Oct. 11—A survey of each Ohio county's nursing resources is being made by Red Cross workers throughout the state. It is planned to list every Ohio woman capable of nursing or assisting in a sick room.

This survey is being made at the request of the War Department to get definite information regarding the number of nurses which may be withdrawn for war service without endangering the civilian needs of the state. The necessity of having such information available is emphasized by the present epidemic of Spanish influenza. Some communities are said to be short of nurses. The survey is to take in every class of nurse, graduate, pupil, practical women who have taken Red Cross nursing courses, midwives and hospital attendants.

WAR BOARD OF OHIO GIVES XMAS HINTS

**Warns Against Promiscuous
Buying; Send Gifts Early,
Advice.**

[By Associated Press to The Banner] COLUMBUS, O., Oct. 11—The Ohio Branch, Council of National Defense, acting jointly with the Woman's Committee of that organization and with the assurance of full co-operation from the retail merchants of Ohio, has fired the first gun in a "win-the-war" drive from now until Christmas for these things:

1.—Buying useful Christmas gifts only eliminating all forms of promiscuous giving. (Toys for children are permissible.)

2.—Buying Christmas gifts early. Merchants have agreed that they will not increase the number of their employees or increase the hours of labor for the Christmas trade this year. It is, therefore, necessary that Christmas shopping be spread over the months of October, November and December.

3.—That all gifts be sent early. December 5th is the date after which no Christmas gift should be sent by mail or express.

4.—Saving of transportation by not buying bulky articles to be sent by express, freight or mail under any circumstances.

5.—By saving of labor; curtailing deliveries by carrying your gifts home and by delivering gifts personally wherever possible.

Merchants of Ohio and the nation have given the government at Washington their pledge to co-operate to the limit in carrying out the government's requests. The Defense Council appeals to the people of Ohio to assist in the program.

MEN AT SAN JUAN CALLED FOR SERVICE

[By Associated Press to The Banner] SAN JUAN, P. R., Oct. 11—Men exempted from military service after examination by the local boards are being called for re-examination in San Juan and in many other municipalities in the islands.

In San Juan those being re-examined include chiefly those called for the second draft of 15,000, who will probably be called for active service in October. In other towns it is said boards are generally going over their lists and calling men, previously exempted, for re-examination.

This action by the examining boards is said to be voluntary on their part but comes in response to general criticism that throughout the island men of the better class have not found it difficult to find grounds on which to obtain exemption.

GERMANY NEEDS FATS

[By Associated Press to The Banner] PARIS—Germany's desperate need for fats was recently shown when, after desecrating St. Croix's church in Chateau-Thierry, the vandals confiscated 400 pounds of candles. James Horton of Atlanta, Ga., a Knights of Columbus chaplain.

SENATORS INCLUDE FARMERS TO PAY OCCUPATIONAL TAX

**Finance Committee Revises
House Provision; Brokers'
Tax Cut In Half.**

[By Associated Press to The Banner] WASHINGTON, Oct. 12—The senate finance committee, in revising the war revenue bill yesterday, approved a business or occupational tax. House provisions placing a tax of \$10 on all persons "engaged in any trade, business or profession," whose gross receipts exceed \$2,500, were adopted after being amended so as to include farmers, whom the house had exempted.

The house tax of \$100 on brokers was cut in half by the committee, which amended the section so that the sale of a stock exchange seat for less than \$2,000 would be exempt from federal tax. House schedules taxing proprietors of theatres and other amusement places on the basis of seating capacity as well as the section levying \$200 against circus owners were accepted.

The proposed 10 per cent tax on sightseeing automobiles, based on their gross receipts, was amended so as to place a flat tax of \$20 on each car seating more than seven persons. A new section was added fixing a rate of \$10 on each passenger automobile seating not less than two persons nor more than seven used as a public conveyance.

House imposts on new or used automobiles other than electric to be paid by the purchaser were reduced one-half. The committee also reduced the tax on electric automobiles from \$5 per horsepower, as provided in the bill, to \$2, and the weight tax from 50 cents to 25 cents for each 100 pounds.

REPUDIATES ACTION OF 'OFFICIAL' ORGAN DOES MT. VER. MAN

**Also Tells Who Organized
The Patriotic League In
This City**

Saturday morning a prominent Republican called at the headquarters of the Patriotic League and indignantly repudiated the action of a local partisan paper in condemning the Patriotic League of Ohio.

"I fear the effect," said the well-known Republican, upon our Republican county ticket, none of whom, I hope, have any cause to fear any action that this nonpartisan league may take.

Continuing, he said: "Who has a better right to organize than the fathers and relatives of soldiers?" At the conclusion of the interview the gentleman applied for membership in the Patriotic League and expressed his hearty sympathy.

The Patriotic league, regardless of partisan attacks, will carefully scrutinize the records of every candidate for office ignoring the party lines. No candidate who opposed the shipment of munitions and foodstuffs to our now gallant allies can escape condemnation.

In answer to the criticism of partisan paper, an officer pointed out that the officers of this organization are composed of two Republicans, two Democrats and one Socialist, all of whom with one exception are the fathers or brothers of soldiers.

The one exception is a veteran of the Civil war.

The planes will be capable of lifting three men, a pilot, a surgeon and an X-ray operator—together with radiograph, surgical instruments and a small folding table in aluminum.
